AVERAGE MONTHLY CHARGES

Our certified revenue recovery auditors provide a detailed and accurate monthly charges report. It breaks down vital information such as the total number of charges collected by each physician and the dollar value of the charges. Practice managers and CFOs will get clear insights into the total monthly charges. Average monthly charges are also calculated accurately. Practice managers can also know the physician with the most charges, to help **track productivity metrics** and individual performance scores of each physician.

CHARGES VS PAYMENTS REPORT

This is one of the most important metrics to track. Your medical practice may be incredibly busy but your collections dismal. This could be because of your **charges being at variance with your payments**. Your charges vs payments report will help you know how strong or weak your billing cycle is.

- Customizable report
- Beautifully designed
- At-a-glance report
Your net collections report is healthy enough. But do you feel your practice could’ve performed better? To make progress you need to know which areas need to be improvised on. This report details the count, payment, posted value and un-posted value of both your insurer and patient payments.

- Detailed reports
- Average payments calculated
- Insurer-patient payment breakdowns

Are your claims languishing in a dark corner of your billing cycle? Get to the bottom of it.

Pending claims report will consist of:
- Provider Details
- Number of pending claims
- Dollar value of claims

Get provider specific:-
- # of visits/charges information
- Know about payments & adjustments
- Get info on write offs-refunds
- Know dollar value of insurance withheld
Our provider based rejection reports pinpoint the number of **claims rejected by the insurer**, dollar value of the rejected claim and reason for claim rejection.

**Example:** If DR.X’s claims are repeatedly rejected for “claim out of balance for insurance sequence”, the provider/biller can be educated on taking appropriate precautions.

**AR Aging Report**

AR backlogs are nightmares. But with careful attention to detail you can whittle down on your aging AR list. BillingParadise **revenue auditing experts** analyze your outstanding AR and categorize them to help you take informed decisions. Your AR data I benchmarked with MGMA standards.
Is most of your outstanding AR stuck in the dreaded 180+ days, category? Take proactive steps to retrieve them with the 180+ days, analysis report. View provider and payer specific information. Do you know that most claims go unpaid because they are not appealed in the timely filing limit set by the insurer? This report sheds light on the TFL of the payer and the date in which the claim was filed.

- Outstanding AR is categorized into different groupings
- View payer specific outstanding 180 days + AR information
- Know the dollar value of outstanding claims

Are you aware of what your top billed CPT codes are? If like most practice managers and CFOs you’ve said “no”, you need to get your hands on this report. It lists out your most frequently billed CPT codes.

The frequency of the medical codes and the total dollar value of each CPT is provided.
12  UNPOSTED PAYMENTS

Payment posting is no rocket science. Surprisingly enough most anesthesia practices still get it wrong. Our revenue recovery auditors identify unposted payments.

<table>
<thead>
<tr>
<th>Payment Type</th>
<th>Count</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patient</td>
<td>1,098</td>
<td>$49,547</td>

<td>Insurance</td>
<td>26</td>
<td>$3,817</td>
</tr>
<tr>
<td>Grand Total</td>
<td>1,124</td>
<td>$53,364</td>
</tr>
</tbody>
</table>

- Type of payment (insurer/patient) is listed
- Know the number of unposted claims
- And the value of the claims

13  TFL TO BE REVIEWED

Every insurer marches to a different drumbeat. The timely filing limits vary across payers. Our payer specific TFL report organizes AR into various groups based on their age. The number of claims that fall into each bucket and their values are accurately

- Simple yet detailed report
- Payer wise breakdowns
- Total AR under each bucket calculated

14  PATIENT BALANCE AGING SUMMARY

Patient payments form a chunk of your anesthesia practice’s revenue. Collect patient payment quickly and take smart remedial measures. We've done all the heavy lifting for you!

View in detail:

- Aging AR details
- Aging AR classified and quantified
- The number of claims that fall under each bucket
- Provider specific patient AR details
- Total percentage of money on the table
### Collectable vs Non Collectable

Are you following up on the wrong claims? Find out with our collectable vs non collectable report.

- Collectable claims: Number > Value > Percentile
- Non collectable claims: Number > Value > Percentile

### Collectable AR

Don’t miss out on an opportunity to collect outstanding AR that have a strong chance being reimbursed. We make the whole process easier for you.

#### The details that matter:
- Payer wise reports
- TFL/AFL information
- Errorless aging schedule
- Total number of collectable AR by payer
- Dollar value of collectable AR by payer

### Non Collectable AR

It is never too late. Get to know the facts behind the numbers. Non-collectable AR may be tough to collect. But you can find a way of negotiating with payers over it i.e. reimbursing a percentage of the claim alone.

Your non-collectable AR report will consist of:

- Payer details
- TFL/AFL information
- AR in the 180+ days category
- Number and value of claims
Get to understand the collection ratio of your anesthesia practice. This report will detail the collection ratio of each month. The peaks and valleys will give you a quick idea of month-wise collection details.

- Concise and simple
- Accurately calculated

This is the report that can make or break your anesthesia practice. The final lost revenue report brings to the surface the major reasons behind lost dollars. Your total charges and the amount of revenue lost will give you big-picture insights.

With the Lost Revenue Report you can:

- Spot your biggest revenue drainers
- Review patterns and trends
- Plan next-steps clearly
